

DATE OF ISSUANCE: 16 DECEMBER 2021

PHEIM ASEAN ISLAMIC FUND ("the Fund")

RESPONSIBILITY STATEMENT

This Product Highlights Sheet has been reviewed and approved by the directors of Pheim Unit Trusts Berhad and they collectively and individually accept full responsibility for the accuracy of the information. Having made all reasonable inquiries, they confirm to the best of their knowledge and belief, that there are no false or misleading statements or omission of other facts which would make any statement in this Product Highlights Sheet false or misleading.

STATEMENT OF DISCLAIMER

The Securities Commission Malaysia has authorised the issuance of Pheim ASEAN Islamic Fund and a copy of this Product Highlights Sheet has been lodged with the Securities Commission Malaysia.

The authorisation of the Pheim ASEAN Islamic Fund and lodgement of this Product Highlights Sheet, should not be taken to indicate that the Securities Commission Malaysia recommends the Pheim ASEAN Islamic Fund or assumes responsibility for the correctness of any statement made or opinion or report expressed in this Product Highlights Sheet.

The Securities Commission Malaysia is not liable for any non-disclosure on the part of Pheim Unit Trusts Berhad, responsible for the Pheim ASEAN Islamic Fund and takes no responsibility for the contents of this Product Highlights Sheet. The Securities Commission Malaysia makes no representation on the accuracy or completeness of this Product Highlights Sheet, and expressly disclaims any liability whatsoever arising from, or in reliance upon, the whole or any part of its contents.

This Product Highlights Sheet only highlights the key features and risks of the Fund. Investors are advised to request, read and understand the disclosure documents before deciding to invest.

PRODUCT HIGHLIGHTS SHEET

PHEIM ASEAN ISLAMIC FUND

BRIEF INFORMATION ON THE PRODUCT

1. What is this product about?

Pheim ASEAN Islamic Fund aims to achieve capital appreciation over a long-term period by investing primarily in Shariah-compliant equities and Shariah-compliant equity related securities of companies listed on or traded in the ASEAN market.

PRODUCT SUITABILITY

2. Who is this product suitable for?

The Fund is primarily for investors who:

- prefer long-term capital appreciation
- want to have a portfolio of investment in ASEAN region rather than a restricted portfolio of domestic securities
- are willing to accept high risks

KEY PRODUCT FEATURES

3. What am I investing in?

Fund Category	Equity (Shariah-compliant)
Type of Fund	Growth
Launch Date	16 December 2021
Financial Year End	30 September
Initial Offer Price	RM1.00
Minimum Initial Investment	RM1,000 or such other limit as may be determined at our discretion
Minimum Additional Investment	RM100 or such other limit as may be determined at our discretion
Investment Strategy & Asset Allocation	<ul style="list-style-type: none">• 70% - 95% of the net asset value ("NAV") of the Fund will be invested in Shariah-compliant equities and Shariah-compliant equity related securities (including Shariah-compliant warrants);• 0% - 20% of the NAV of the Fund will be invested in Islamic collective investment schemes (including Islamic real estate investment trusts ("REITs")); and• The remaining NAV of the Fund will be invested in sukuk and Islamic liquid assets.

The Fund seeks to provide capital appreciation. To pursue this goal, the Fund will invest primarily in ASEAN market including but not limited to Malaysia, Singapore, Indonesia, Thailand, Philippines and Vietnam, in accordance with Shariah requirements. In analysing companies, Pheim Islamic Asset Management Sdn Bhd ("PIAMSB"), the external investment manager will invest mainly in undervalued stocks which, in its opinion, are likely to outperform the market without being exposed to unnecessary risks.

The Fund will invest in sukuk that are issued under the Guidelines on Unlisted Capital Market Products under the Lodge and Launch Framework. The Fund will also have the flexibility to invest up to 20% of the NAV of the Fund in Islamic collective investment schemes (including Islamic REITs).

PIAMSB adopts a combination of bottom-up and top-down approaches, leveraging on its equity research platform. PIAMSB will focus on identifying fundamentally healthy companies with low valuations, low leverage, high growth, robust management and strong track record. As a sell discipline, PIAMSB will realize the investments of the Fund when, in PIAMSB's opinion, a fair value is reached or when better investment alternatives present themselves. The Fund is actively managed. However, the frequency of its trading activities will depend on the investment opportunities and the assessment of PIAMSB.

PIAMSB may take a temporary defensive position during adverse market conditions. In times of extreme market volatility and/or when market valuation is at a level considered unsustainable, the Fund will judiciously scale back to its equity exposure below its investment limit. During such times, PIAMSB will invest in investments which it considers may better preserve the value of the Fund (for example, Islamic money market instruments) although not necessarily meeting entirely the growth objective of the Fund.

Performance Benchmark

5.5% growth in NAV per annum over the long-term.

This is not a guaranteed return and is only a measurement of the Fund's performance. The Fund may or may not achieve the benchmark in any particular financial year but the Manager targets to achieve the benchmark over the long-term.

Information on the benchmark can be obtained from www.pheimunitrusts.com.

Manager	Pheim Unit Trusts Berhad
External Investment Manager	Pheim Islamic Asset Management Sdn Bhd
Trustee	Maybank Trustees Bhd
Shariah Adviser	Amanie Advisors Sdn. Bhd
Sub-Custodian (Local)	Maybank Securities Services
Sub-Custodian (Foreign)	Standard Chartered Bank Malaysia Berhad
Auditor	Folks DFK & Co
Taxation Adviser	Folks Taxation Sdn. Bhd.

KEY RISKS

5. What are the key risks associated with this product?

5.1 Risk and Your Investment

The value of your investment will go up and down with the value of the Fund's assets. You may receive less money than what you have invested and there is no guarantee that you will receive any income distribution.

The risk that you take depends on many factors – for example, which class of assets did the Fund invest in, how long do you intend to invest and the timing of your investment.

5.2 Specific Risks Associated with the Investment Portfolio of the Fund

Shariah-compliant equities and Shariah-compliant equity related securities risk	As the investments of the Fund will be in Shariah-compliant equities and Shariah-compliant equity related securities, the Fund will be affected by equity risk. Generally, equity risk may arise in the following forms, i.e., equity risks related to external factors and equity risks related to company-specific factors. All of these related equity risks can adversely affect the prices of equities, which would negatively impact the performance of the Fund.
---	---

Equity risks related to external factors include economic, political or general market factors which impact equities generally. For example, adverse political developments may cause the economy of the country in which the Fund invests in to become unstable, which in turn affects the profitability of a company that operates in that country due to weakening of the economy.

Equity risks related to company-specific factors include how the companies in which the Fund invests are managed; the performance of any given company depends on the quality of its management. A company that has a competent management with the necessary experience and skill sets will contribute to the effectiveness of the operations of the company as indicated by such metrics as revenue growth and profitability. Company specific factors also include how the company is doing relative to its competitors or other companies in its industry or related industries.

These types of equity risks can work individually or in combination to negatively affect the value of Shariah-compliant equities and Shariah-compliant equity related securities held by the Fund.

Currency risk

The value of foreign investments will reflect the currency movements. Fluctuations in the denominated currencies of the Shariah-compliant foreign shares and Islamic bonds or sukuk will affect the price of the units.

Country risk

The Shariah-compliant stock prices may be affected by the political and economic conditions of the country in which the Shariah-compliant stocks are listed. Unexpected events may stop the Manager from realising the full value of assets in those countries.

Reclassification of Shariah status risk

This risk refers to the risk that the currently held Shariah-compliant securities in the portfolio of the Fund may be reclassified as Shariah non-compliant in the periodic review of the securities by the Shariah Advisory Council of the Securities Commission Malaysia, the Shariah adviser or the Shariah boards of the relevant Islamic indices. If this occurs, the Manager will take the necessary steps to dispose of such securities. There may be opportunity loss to the Fund due to the Fund not being allowed to retain the excess capital gains derived from the disposal of the Shariah non-compliant securities. The value of the Fund may also be adversely affected in the event of a disposal of Shariah non-compliant securities at a price lower than the investment cost.

Liquidity risk

This risk occurs in thinly traded or illiquid Shariah-compliant securities. Should the Fund need to sell a relatively large amount of such securities, the act itself may significantly depress the selling price. The risk may be minimised by placing a prudent level of funds in short-term Islamic deposits and by investing in Shariah-compliant stocks whose liquidity is adjudged to commensurate with the expected level of the Fund.

Credit/Default risk

This risk relates to Fund's investment in sukuk and/or sale of Shariah-compliant securities, Islamic money market instruments and Islamic deposit placements. The financial institution in which the Fund invests in may not be able to make the required profit payments or repayment of principal. The Fund could lose money if the issuer or guarantor of a sukuk, or the counterpart to a loan of portfolio securities, is unable or unwilling to make timely principal and/or profit payments, or to otherwise honour its obligations.

Shariah-compliant warrants risk

The Fund may also invest in Shariah-compliant warrants. The price of Shariah-compliant warrants is typically linked to the underlying stocks. However, the price and performance of such Shariah-compliant warrants will generally fluctuate more than the underlying stocks because of the greater volatility of the warrants market. Generally, as the Shariah-compliant warrants have a limited life, they will depreciate in value as they approach their maturity date, assuming that all other factors remain unchanged. Shariah-compliant warrants that are not exercised at maturity become worthless and negatively affect the NAV of the Fund.

Islamic collective investment schemes risk

The NAV of the Funds may be affected by its investments in Islamic collective investment schemes. For example, the performance of the Islamic collective investment schemes may be adversely affected due to various factors such as poor market conditions as well as the respective fund manager's capabilities. As a result, the performance of the Funds may be adversely impacted.

Emerging market risk	<p>Potential investors should be aware that investments in emerging markets may involve a higher degree of risk than investments in developed markets. A portfolio consequently may experience greater price volatility and significantly lower liquidity than a portfolio invested solely in equity securities of issuers located in more developed markets.</p> <p>Investments in emerging market securities entail significant risks in addition to those customarily associated with investing in securities of issuers in more developed markets, such as:</p> <ul style="list-style-type: none"> (i) low or non-existent trading volume, resulting in a lack of liquidity and increased volatility in prices for such securities, as compared to securities of comparable issuers in more developed markets; (ii) uncertain national policies and social, political and economic instability, increases the potential for expropriation of assets, confiscatory taxation, high rates of inflation or unfavourable diplomatic developments; (iii) possible fluctuations in exchange rates, differing legal systems and the existence or possible imposition of exchange controls, custodial restrictions or other laws or restrictions applicable to such investments; (iv) national policies which may limit a portfolio's investment opportunities such as restrictions on investment in issuers or industries deemed sensitive to national interests; and (v) the lack or relatively early development of legal structures governing private and foreign investments and private property. Other risks relating to investments in emerging market issuers include the availability of less public information on issuers of securities, settlement practices that differ from those in more developed markets may result in delays or may not fully protect a portfolio against the loss or theft of assets, the possibility of nationalisation of a company or industry and expropriation or confiscatory taxation and the imposition of foreign taxes. <p>Investments in emerging markets securities may also result in generally higher expenses due to the costs of currency exchange, higher brokerage commissions in certain emerging markets and the expense of maintaining securities with foreign custodians. Issuers in emerging markets may not be subject to accounting, auditing and financial reporting standards and requirements comparable to those to which companies in developed markets are subject to.</p>
----------------------	---

License risk	<p>This risk is associated with investment in Shariah-compliant securities listed in a country which requires a license prior to making an investment in the said country such as Vietnam. Such license may be revoked or not be renewed should the Manager breaches the relevant regulations of the said country. If this occurs, the Fund will have to liquidate all stocks listed on the exchanges in the said country within the stipulated period. The liquidation may be performed at a loss, hence affecting the NAV of the Fund. This risk may be reduced, if the Manager diligently observes and complies with the relevant regulations of the said country.</p>
--------------	---

Investors are reminded that the risks listed above may not be exhaustive and if necessary, they should consult their adviser(s), e.g. bankers, lawyers, stockbrokers or independent professional advisers for a better understanding of the risks.

For more details, please refer to section 4 in the master prospectus for the general and specific risks of investing in the Fund.

Note: If your investments are made through an institutional unit trust adviser (“Distributor”) which adopts the nominee system of ownership, you would not be deemed to be a unit holder under the deed and as a result, your rights as an investor may be limited. Accordingly, the Manager will only recognize the Distributor as a unit holder of the Fund and the Distributor shall be entitled to all the rights conferred to it under the deed.

FEES & CHARGES

6. What are the fees and charges involved?

Maximum Sales Charge	5.00%
Repurchase Charge	Nil

Switching Fee	One (1) free switch per account per calendar year. For any subsequent switching request during the year, you will be charged 1% of the amount switched subject to a maximum charge of RM100.00, whichever is lower, which will be deducted from the repurchase proceeds. Switching from an Islamic fund to a conventional fund is discouraged especially for Muslim unit holders.
Transfer Fee	RM50
Annual Management Fee	1.50% of the Fund's NAV, calculated daily and paid to the Manager on a monthly basis
Annual Trustee Fee	Up to 0.055% per annum of the Fund's NAV subject to a minimum fee of RM15,000 (excluding foreign custodian fees and charges), calculated daily and paid to the Trustee on a monthly basis
Other Charges	Nil
Other Expenses of the Fund	<ul style="list-style-type: none"> - auditor and other professional fees; - accounting fee; - tax and duties imposed by the authorities; - Shariah adviser's fee - investment committee members' fee; - cost of convening meetings of unit holders other than those incurred by or for the benefit of the Manager or trustee; - cost for modification of deed save where such modification is for the benefit of the Manager and/or the trustee; - cost of production and distribution of reports of the Fund, tax vouchers, dividend warrants and notices to unit holders; and - other fees/expenses permitted in the deed.

INVESTORS SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST CONSULTANT

VALUATION AND EXITING FROM INVESTMENT

7. How often are valuations available?

At the end of each business day, the Manager will value the Fund's investments to reflect the Fund's current market price. The NAV per unit of the Fund will be calculated on a forward pricing basis, which means that it is calculated at the end of the next valuation point, after the application for investment or repurchase of units of the Fund is received by us.

The Fund's NAV per unit will be available on our website, www.pheimunittrusts.com.

8. How can I exit from this investment and what are the risks and costs involved?

Repurchase of Units or Redemption

You may redeem all or part of your units on any business day subject to a minimum repurchase amount of at least 500 units or such other limit as may be determined at our discretion (unless it is a full repurchase). There is no limit to the frequency of repurchase transactions. However, if the request for repurchase leaves a unit holder with less than 1,000 units (minimum holdings) or such other limit as may be determined at our discretion, the unit holder may be required to make an application to the Manager to redeem all of the unit holder's holdings in the Fund.

You can make a redemption by completing the transaction form and submitting it through our agents or direct to our head office. Please ensure that the transaction form is signed in accordance with the signing instructions given by us to avoid delays in processing the repurchase request.

A valid repurchase request received before the cut-off time on any business day will be processed on the same day using the unit price set at the close of the business day (forward pricing). If the said repurchase request is received after the cut-off time, the repurchase request will be processed on the next business day using the unit price set at the close of that business day. If the repurchase request is received on a non-business day, the repurchase request will be processed on the next business day.

You will be paid within 10 days from the date we receive a complete repurchase request transaction form.

Cooling-off Rights

A cooling-off right refers to the right of an investor to obtain a refund of his/her investment in the Fund if the unit holder so requests within the cooling-off period. The cooling-off period of the Fund is 6 business days commencing from the date of receipt of the complete application form by us. The cooling-off right is only applicable for initial investment by individual investors in the Fund for the first time only. The cooling-off right is not applicable to our staff and persons registered with a body approved by the Securities Commission Malaysia ("SC") to deal in unit trust funds.

The refund for every unit held by you pursuant to the exercise of the cooling-off right shall be the sum of:

- a) the NAV per unit on the day the units were first purchased; and
- b) the sales charge per unit originally imposed on the day the units were purchased.

When a cooling-off right is exercised, the money will be refunded to the applicant within 10 days of receipt of the notice of cooling-off by the Manager. The withdrawal proceeds will only be paid to you once the Manager has received the cleared payments for the original investment.

CONTACT INFORMATION

9. Who should I contact for further information or to lodge a complaint?

1. For internal dispute resolution, you may contact:

The Manager	Pheim Unit Trusts Berhad (200101010163 (545919-A))
